

MAGPIES JUNIOR FOOTBALL CLUB

CODE OF CONDUCT

ADMINISTRATORS/MANAGERS

Junior Australian Football will largely be conducted within the environment you establish; you and other support personnel have a special responsibility to project and protect the values of our game. You have a role to encourage and support the players and coach your team consistent with these values. You have an important part to play to ensure the game is conducted within a well-administered and professional environment.

Administrators and Managers should:

- Ensure equal participation for all players, regardless of ability, size, shape, age, disability or ethnic origin;
- Involve your players in the leadership, planning, decision making and evaluation activities; whenever possible involve young people to assist in your duties;
- Ensure that adequate supervision is provided by qualified and competent coaches and officials capable of developing skills and appropriate behaviour;
- Be positive with the players after the match irrespective of the result;
- Promote respect for opponents: condemn unsporting behaviour;
- Be committed to keeping yourself informed of sound administrative principles and the values of growth and development of players and the game in general;
- Remember that players participate for enjoyment, skill and character development – not just to win or for other rewards.
